

Racer Support

www.eriksbikeshop.com

Erik's Bike Shop will be offering jersey design support for all approved Minnesota High School Cycling League student-athlete teams. Team coaches or captains must provide as much detail as possible regarding total number of jerseys and sizes requested once team is formed.

Erik's Bike Shop will assist in the design of jerseys and will offer them at cost to student-athletes at their preferred Erik's location.

Erik's Bike Shop will:

- Assist in jersey design
- Sell jerseys at cost to student athletes
- Stock a 3-year supply of jerseys at the preferred Erik's location
- Offer one-time bike and accessories discounts after student-athlete purchases their jersey.
The one-time discount will be valid for one calendar year.

Erik's Bike Shop utilizes Champion Systems for its jersey creation and purchasing. Teams should allow a minimum of 6 weeks from initial design submission for availability. Please plan in advance so jerseys are available for the first race.

Jersey template provided on the back of this form. Please sketch out in detail your preferred design.

*No corporate sponsors are allowed on jerseys. Designs must be focused on school logos, mascot and colors only.
